

## LABINCO Fresh cow's milk stirrer in refrigerator coffee machines

### Description

This is a magnetic stirrer built into a refrigerator. This is to keep fresh milk moving at a low speed so the cream doesn't float. It is a separate refrigerator that sits next to a coffee machine and so you always have nice fresh milk with your cappuccino or latte.

All our custom made products are designed / developed and created in our own factory in The Netherlands.

Custom made product, let us know your wishes.
